

GLOBAL CITY
TEAMS CHALLENGE

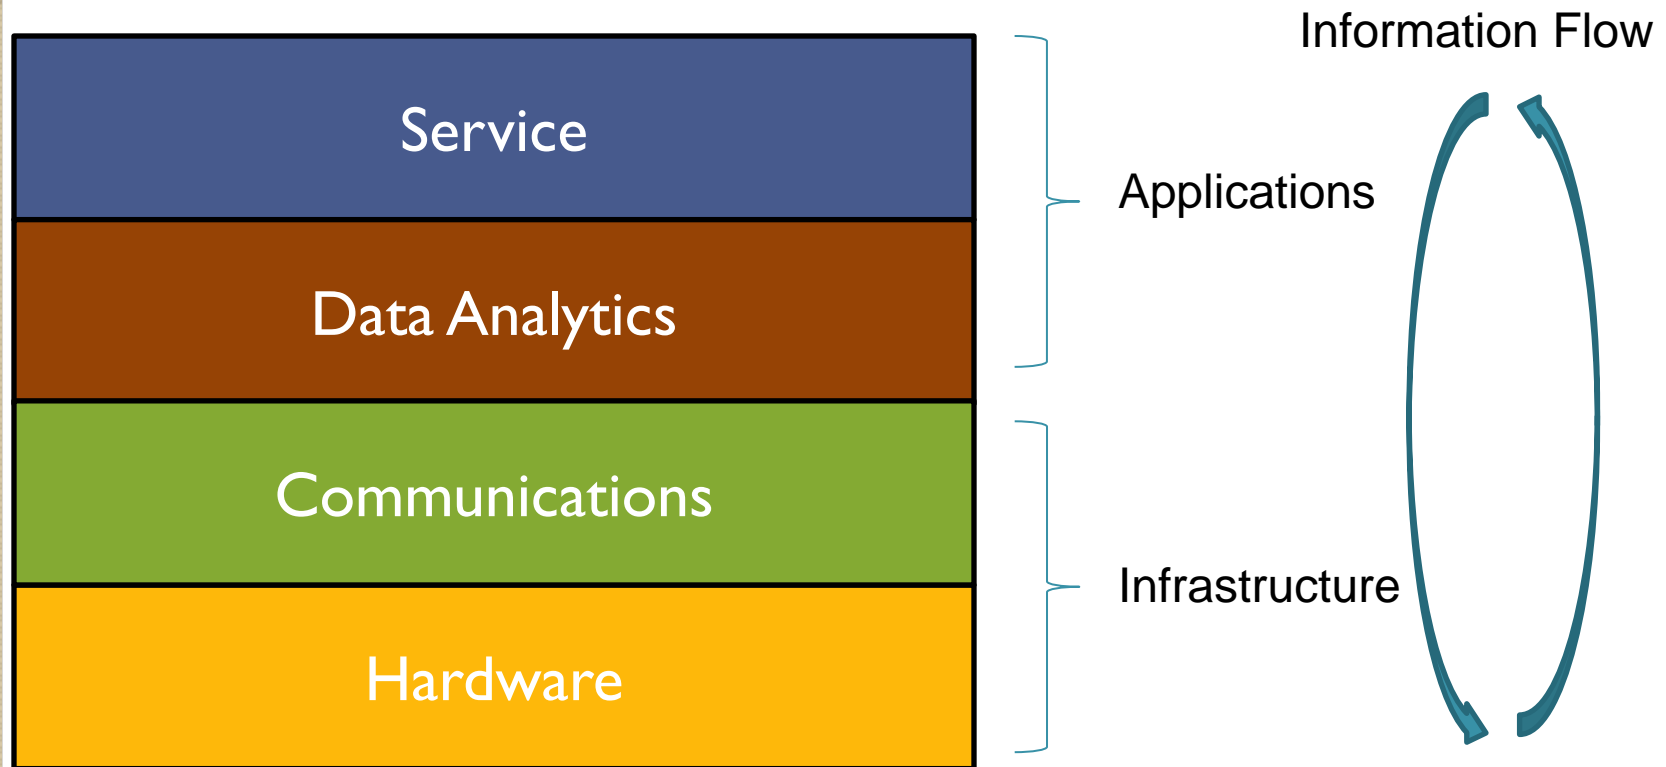

GLOBAL CITY TEAMS CHALLENGE 2016

Sokwoo Rhee

Associate Director of Cyber-Physical Systems Program
National Institute of Standards and Technology (NIST)
US Department of Commerce

Internet of Things (IoT) and Smart Cities

Public Sector IoT: Smart Cities and Communities

- Smart City: Use smart technologies such as IoT and CPS to improve the quality of life in cities and communities
- Many smart community efforts are one-off projects with heavy emphasis on customization and inadequate consideration for future upgradability and extensibility
- Lack of clear measurability of success impedes broader adoption of the solutions
- As a result, many Smart Cities/Communities deployments are isolated and do not enjoy the economy of scale.

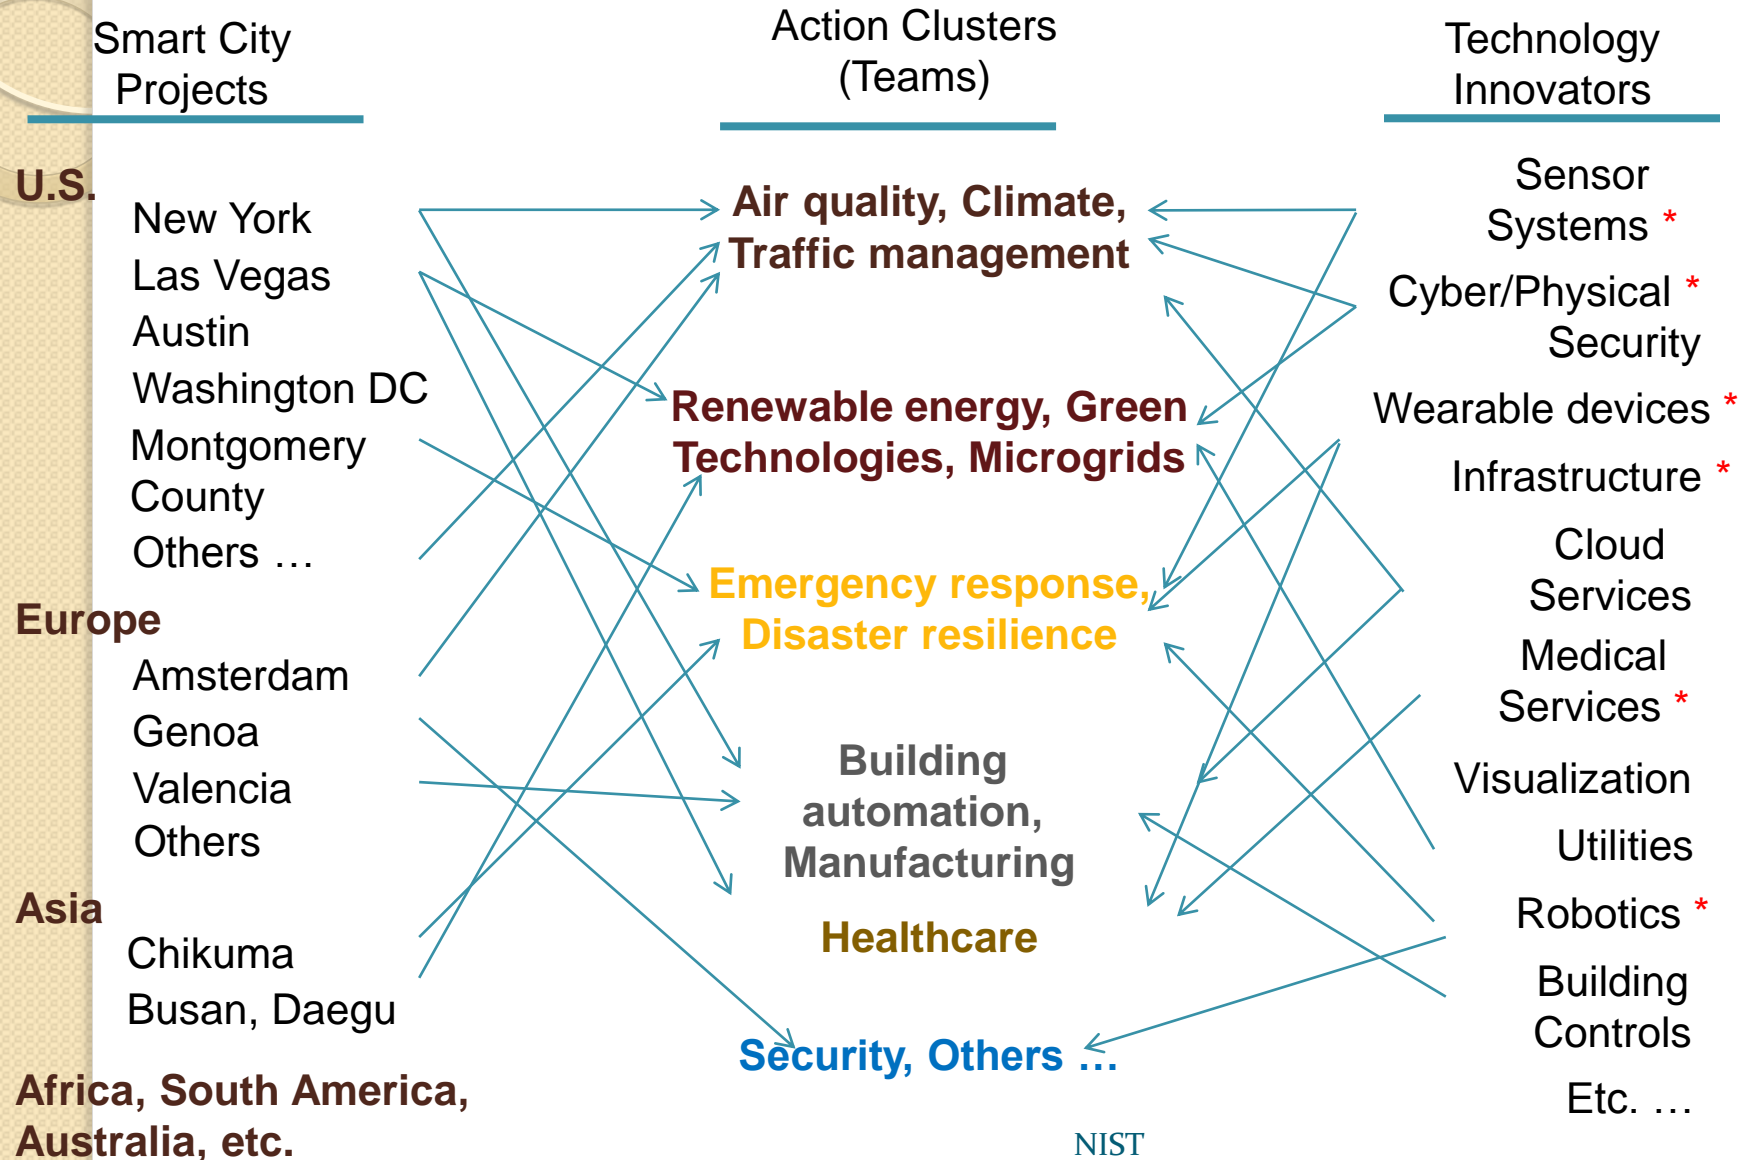

Global City Teams Challenge

- Establish and demonstrate replicable, scalable and sustainable models for incubation and deployment of interoperable, standard-based IoT solutions and demonstrate their measurable benefits in Smart Communities/Cities

The Approach

Timing Issues *

GCTC 2015 Expo on June 1 at National Building Museum in Washington DC

Source: National Building Museum web site

- Exhibitions and presentations from over 60 teams in partnership with 50+ municipal governments and 200+ companies/universities/organizations
- Special Session with the **King Willem-Alexander and Queen Maxima** of the Netherlands
- Keynote Speeches
 - **Anthony Foxx**, US Secretary of Transportation
 - **Tom Kalil**, Deputy Director of White House Office of Science and Technology Policy
 - **Willie May**, Director of NIST and Under Secretary of Commerce
 - **Jim Kurose**, Assistant Director, NSF
- 1500 attendees including smart cities experts, CPS/IoT stakeholders, cities, communities, federal governments, industry and academia
- 50+ media outlets from around the world

Over 60 Cities in GCTC 2016 (Partial list shown):

- Portland, OR
- Newport News, VA
- Greenville, SC
- Raleigh, NC
- Montgomery County, MD
- Winooski, VT
- Santa Rosa, CA
- New York, NY
- Washington, DC
- Kansas City, MO
- Nashville, TN
- Austin, TX
- Amsterdam (Netherlands)
- Genova, Perugia (Italy)
- Coruna, Valencia (Spain)
- Saint-Quentin (France)
- Abuja City, Obia-Akpor City (Nigeria)
- Busan, Seoul, Daegu (Korea)
- Chikuma (Japan)

StormSense Project

SMART MOBILE OPERATION: OSU TRANSPORTATION HUB (SMOOTH)

THE OHIO STATE UNIVERSITY
CENTER FOR AUTOMOTIVE RESEARCH

First Mile/Last Mile Solutions

- On demand automated vehicles will move passengers the first mile to the bus stop and the last mile from the bus stop (bottom picture).
- Scheduled or on demand vehicles will move passengers through a closed loop within OSU campus (through roads and pedestrian areas, top picture).
- The vehicles will:
 - use automated driving technology;
 - use V2V communication for convoy driving;
 - be equipped with vulnerable road user protection technology enabling them to function in pedestrian zones.
- SMOOTH will keep track of vehicles and guide them.
- Smartphone applications will be developed to schedule and track the on-demand automated vehicles.

PARTNERS

Ohio State University - Center for Automotive Research
City of Columbus
Mid-Ohio Regional Planning Commission (MORPC)
Team ARIBO

Location: Columbus, Ohio

Situational Awareness

A resilient community requires the integration of human capital into resources and infrastructure.

Bringing Internet of Things Know-How to High School Students

Today's students will be building the smart cities and communities of tomorrow.
The time to start learning is now.

Why?

- Strengthen STEM education and interest
- Learn about open hardware and software
- Learn to program hardware and sensors
- Learn how to share and analyze data
- Consider ways to leverage high-speed connectivity where available

Current Partners of GCTC 2016

- Partners
 - US-Ignite
 - US Government Agencies: NSF, ITA, DoT, State Department, GSA, NCO/NITRD, Census, NTIA
 - Non-US Central Governments: Netherlands, Italy, South Korea, Japan
 - Corporations:    
 - Non-profits: FIWARE, World e-Governments (WeGO), Industrial Internet Consortium (IIC), MetroLab Network, R20, ICMA, USGBC
- Participating Members (partial list)
 - Qualcomm, Bosch, Siemens, Microsoft, CH2HL, Mueller Water, PEPCO, Hitachi, Sensity Systems, Big Belly, Senseware, Link Labs, Vizias, Pecan Street, Inc., InterInnov, TeamDev, Hostabeem, MIT, Vanderbilt, Carnegie Mellon University, Georgia Institute of Technology, University of North Texas, George Washington University, Wireless Research Center NC, Downtown DC BID, IoT Dev Labs, Inc, National Capital Planning Commission (NCPC) and more
- More than 60 cities around the world are currently participating.

GCTC 2016

- Aims to demonstrate quantifiable/measurable benefits to the cities and communities
 - Traffic jam reduction by 20%?
 - Air pollution reduction by 25%?
 - Energy reduction by 30%?
- 20-month process (2 Phases)
 - 1st Phase by June 2016 – Team building phase
 - 2nd Phase by June 2017 – Implementation phase
- **Tech Jam: March 22-23, 2016, NIST**
 - Over 50 Action Clusters will present their plans and identify additional partners
 - Office Hours by NSF, ITA and industry Partners
 - Poster sessions by participants

GCTC Expo, June 13-14, 2016

- GCTC 2016 Phase I Expo: **June 13-14, 2016, Austin Convention Center, Austin, TX, United States**
 - Featuring exhibitions and project presentations from Action Clusters, and opportunities to engage with other teams and Smart City leaders from industry, government, and academia
 - Visit US-Ignite Expo site www.gctcexpo.org for more details and registration.
 - A short project plan needs to be submitted by April 29, 2016 to be considered for 2016 Expo presentation and exhibition - See the instructions at: <https://www.us-ignite.org/globalcityteams/participation-guide>
 - Although the GCTC Expo is co-located with US Ignite's Application Summit and the Smart Cities Innovation Summit, the GCTC Expo is a separate and distinct event. The GCTC Expo will have its own exhibition space and its own process for registration. Acceptance as a speaker or exhibitor by the US Ignite Application Summit or the Smart Cities Innovation Summit events does not entitle an organization to speak or exhibit at the GCTC Expo

Funding Opportunities for GCTC

- **NSF EAGER Grant (NSF Office Hours today and tomorrow)**
 - Up to \$300,000 for each award for fundamental research inherent to the real-world problems.
 - Grant applications are due **April 1, 2016**.
 - For US participants who is an active member of a GCTC Action Cluster, working on a project that will build upon the results of a previous or active NSF-funded project.
 - Info: <http://www.nsf.gov/pubs/2016/nsf16036/nsf16036.jsp>
- **US-Ignite GCTC Leadership Fund**
 - Cash awards to exceptional Action Clusters and travel support to the GCTC Expo in June 2016, available to both US and non-US participants
 - Applications are due **April 15th, 2016**.
 - Info: <https://www.us-ignite.org/globalcityteams/leadership-fund/>
- **NIST Replicable Smart City Technologies (RSCT) Grant Program**
 - For US local governments participating in the GCTC.
 - Three \$100,000 awards for US local governments participating in the GCTC.
 - The application deadline is **May 12, 2016**.
 - Info: <http://www.grants.gov/web/grants/view-opportunity.html?oppld=281680>
